

## Environmental Policy Statement

Mapal Green Energy Limited is committed to leading the waste water industry in minimizing the impact of its activities on the environment.

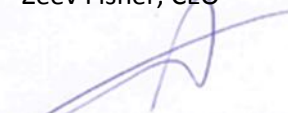

Good environmental management is central to our activities and we seek to limit the direct and indirect environmental impacts of our business and enhance environmental quality in areas where it has influence.

We are committed to continual improvement in environmental performance and it is our aim to purchase and use environmentally preferable goods and services.

### The key points of our strategy to achieve this are:

- Meet or exceed all the environmental legislation that relates to the Company.
- Develop techniques, which will enable us to select materials that reduce our impact on the environment and avoid the risk of pollution.
- Operate in an energy efficient manner.
- Minimize waste by evaluating operations and ensuring they are as efficient as possible.
- Actively promote recycling both internally and amongst its customers and suppliers.
- The Company will implement a training program for its staff to raise awareness of environmental issues and enlist their support in improving the Company's performance
- Mapal Green Energy Ltd will encourage the adoption of similar principles by its suppliers.

Zeev Fisher, CEO
